Know more about the different types for charging stations available for customer network

BCP-BT2N-L

3-Phase smart Version

Smart EV Charger with **Type 2** (IEC 62196-2) Plug Socket IP65 Electric Vehicle Charging Station EV Wallbox CE Certified.

Efficient Charging

7.4kW to 22kW
Power Range

Socket Type

IP65 Rating

Full Protection

Universal Type 2 Socket

RFID function

EV Charger 6 A-32 A

3-Years Warranty

Smart EV App Via Wifi/Bluetooth

Electrical Specifications

AC Nominal Input & output

Phases/Lines	3-phase
Voltage	230V
Frequency	50-60Hz
Output and input power	7.4KW – 22KW
Output and input current	6A to 32A

General Specifications

Communication Method	Wi-Fi / Bluetooth 4.3
----------------------	-----------------------

App Availability	yes
------------------	-----

Charging Socket	Type 2 plug socket without cable
-----------------	----------------------------------

Charging Mode	Mode 3
---------------	--------

Housing Material	Polycarbonate
------------------	---------------

LED Screen Status Indication	LED Light
------------------------------	-----------

RFID Card/Tag	yes
---------------	-----

RFID Card/Tag Qty	2
-------------------	---

Environmental Index

Operating Temperature	-25c°~+55c°
-----------------------	-------------

Working Humidity	5%-95%
------------------	--------

IP Rating	IP55
-----------	------

Mounting Method	Wall or Pole
-----------------	--------------

Application place	indoor/outdoor
-------------------	----------------

Working Altitude	<2000m
------------------	--------

Warranty	3 Years
----------	---------

Compliance	IEC61851-1, IEC61851-21-2, IEC61000-4 CE EMC EU/2014.CE Low Voltage EU/2014/35
------------	---

Certificate	CE, UKCA, CB, RCM
-------------	-------------------

Package Information

Product Dimension	W278 x H360 x D152 mm
-------------------	-----------------------

Weight	5 kG
--------	------

Protection

Multiple Protection	Over/Under Voltage Protection, Overload Protection, Current Leakage Protection, Grounding Protection, Over Temp Protection, Lightning Surge Protection
Dynamic Load Balancing	Yes, With External DLB
Fault protection	yes
Residual current protective devices	Built in TypeA + DC6mA Leakage Sensore

Communication

Communication Method	WI-FI / Bluetooth 4.3
App Availability	yes

Connect App

The EV charger can be controlled by smart APP via WIFI or bluetooth connection.

One to one binding EV charger by reset the password, prevent the EV charger being stolen.

View charging data and status.

Set up various charging configurations, charging current,DLB mode,etc.

Scheduled charging.

Firmware update.
